Board President; Circle Six Baptist Ranch; Vice President, Religious Educators Association; Dallas, TX.*

Jimmy's testimony includes allowing life issues to lead to poor choices which caused great stress and anxiety in his life. Not knowing where to turn for help he languished in these issues which eventually led to leaving church staff. After a time of healing he sensed God calling him to help ministry leaders who were dealing with life stress. Life Recovered was launched in 2009 as an avenue to offer support and encouragement to ministry leaders. In 2011 a Pastor friend took his own life due to great stress, anxiety and life issues. Jimmy stepped into Life Recovered full time a few months following this incident. Since that time he has invested in the lives of dozens of ministry leaders to help them find healing and restoration.

Jimmy's heart is to connect people to the gospel and to help them find hope and restoration through Biblical understanding.
